

DIGITAL jGUN

The new digital jGun series from HYTORC is the world's first torque-adjustable pneumatic multiplier with a digital readout and FRL-free operation. Unlike other systems that require a separate filter, regulator and lubrication system between the air line and the tool, the patented design of the digital jGun eliminates the need for this add-on for the highest level of portability and convenience.

Digital Readout

The digital jGun is the world's first industrial torque multiplier with a digital readout for instant confirmation of selected torque. No more pressure-to-torque conversions or calculations. Select between ft-lbs and Nm.

Built-In Torque Adjustment

The Digital jGun is the first of its kind with an onboard air regulator for simple torque adjustment with a twist of the connector at the bottom of the handle. Especially convenient when switching from tightening to loosening, giving you the ability to quickly adjust to full power for fast and easy break-out.

Industrial-Grade Motor

The new motor featured in the Digital jGun is a workhorse designed for heavy industrial use. With maximum power to weight and a rugged corrosion resistant design, this motor eliminates the need for separate air filters and lubrication systems making the Digital jGun the most portable air powered torque gun on the market.

Technical Data

Model	H (Inch)	W (Inch)	L (Inch)	D (Inch)	Drive (Inch)	Weight (Lbs)	Torque (ft-lbs)	
							MIN.	MAX.
DJ - .25	7.55	3.12	6.95	2.50	3/4	8.25	50	250
DJ - .5	7.55	3.12	8.03	2.58	3/4	8.85	135	500
DJ - 1	7.55	3.12	8.79	2.58	3/4	9.80	350	1,150
DJ - 2	8.09	3.23	10.79	3.25	1	16.50	540	2,090
DJ - 3	8.09	3.23	11.46	3.25	1	17.70	856	3,180
DJ - 5	8.09	3.23	12.26	4.15	1 1/2	23.20	1,150	5,050
DJ - 8	8.09	3.23	13.49	4.56	1 1/2	29.50	1,825	7,900
