

HY-115-CSA PUMPS

The **HY-115-CSA** electrically-operated hydraulic power pack is fast, reliable, efficient and economical. The HY-115 will outperform any standard pump on the market; it operates at a very quiet ~80 dB. The HY-115 comes equipped with an oil cooler, making overheating a thing of the past. Simple controls make for short set-up times. An optional Hour Meter is available to better track run times.

HEAVY DUTY REMOTE

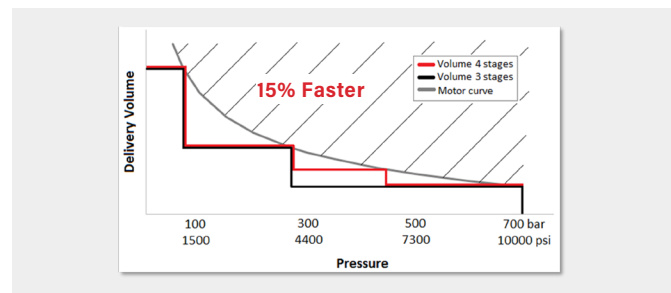

The HY-115 Pump has a heavy duty remote to handle the harshest conditions. The simple 2-button setup makes operations user friendly.

LED LIGHT SYSTEM (HY-115)

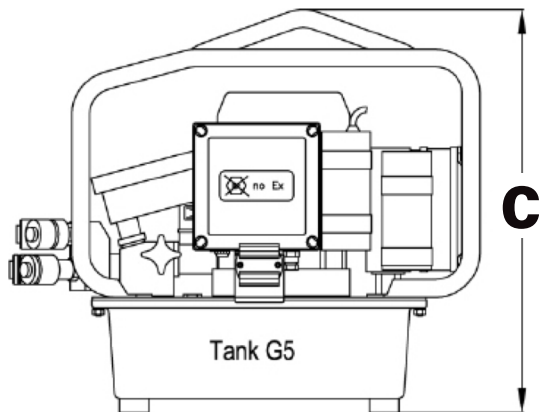

The HY-115 Pump is equipped with three colored LED lights integrated into the electric control box for system monitoring. The LED lights let you know that you are operating within voltage and temperature limits.

FAST 4-STAGE PUMP DESIGN

By adding a fourth pressure stage in the 4,000 to 7,000 psi range the HY-115 Pump increases the flow of oil to the tool. Allowing the tool to cycle faster and resulting in a 15% time savings over old 3-stage pumps.
